

MWCOG Idle Reduction Campaign

Motorcoach Specific Live Read Radio Script, :30

VO: Attention diesel motor coach drivers:

Did you know that turning your engine off -when it doesn't need to be on- is one of the easiest ways to cut fuel costs, reduce diesel emissions and avoid costly fines?

To learn more about idling laws and the steps you can take, please visit: Turn-Your-Engine-Off-dot-org, that's Turn-Your-Engine-Off-dot-org.

Help to keep our air clean and avoid the fines – don't idle.

This public service announcement brought to you by the Metropolitan Washington Council of Governments, with the District Department of the Environment, the District Department of Transportation and the Maryland Department of the Environment.
